

## Chemical Use

Chemical	Where used	When used	Formulation	Who applies it	Other details

### Guidelines for completion:

- Consider whether potential hygiene hazards highlighted apply to your operation. If so, describe how they will be minimised.
- Consider what other hygiene hazards may be present in your situation and describe action required.
- Detail what chemicals you work with and complete as required.
- Ensure assessment form is completed / signed off by the responsible person in charge and look to review the plan before next season.

Name of person completing hygiene hazard assessment: .....		Position: .....	
Signature.....			
Date: .....		Date of next review: .....
