

## BRITISH GAME ALLIANCE GAMEBIRD PRODUCER ASSURANCE

### BREEDER SCHEME STANDARDS

#### Pre-Assessment Checklist

The checklist will help prepare for the assessment visit. It is not an exclusive list and should be used in conjunction with the Standards Manual.

The purpose of this guidance is to allow the member to prepare in advance of the assessment – to have information and records available for the assessor and to understand what the assessor may want to see. This will enable the assessor to quickly access the information he/she requires and will enable them to complete the audit more constructively reducing the time impact on your shoot.

Depending on the type of game farm, not all the standards will be applicable. These will be recorded as 'non-applicable' by the assessor, and no further action will be required.

<b>Planning &amp; Documents</b>
<ul style="list-style-type: none"> <li>• Site Plan – details of housing</li> <li>• Emergency Action Plan – detailing procedures in the event of emergency</li> <li>• Environmental management – management of waste/appearance</li> <li>• Assurance status or eggs/chicks/birds from bought in laying birds</li> </ul>
